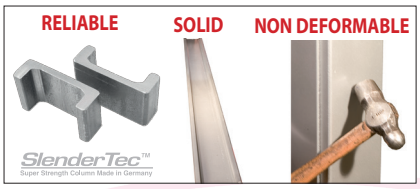
CASCOS
LIFTING PROFESSIONALS

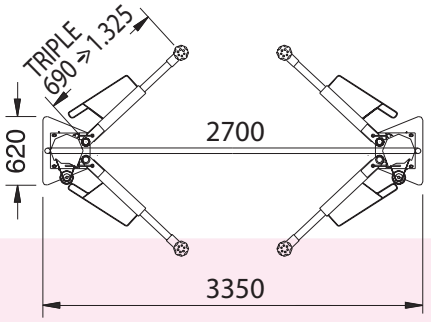
2 POST LIFTS
C3.5S

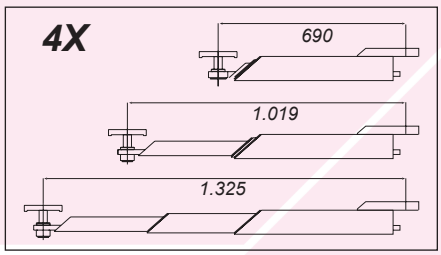
Ref.				
13169	3.500 Kg.	660 Kg.	400/230V - 3+3kW	45”

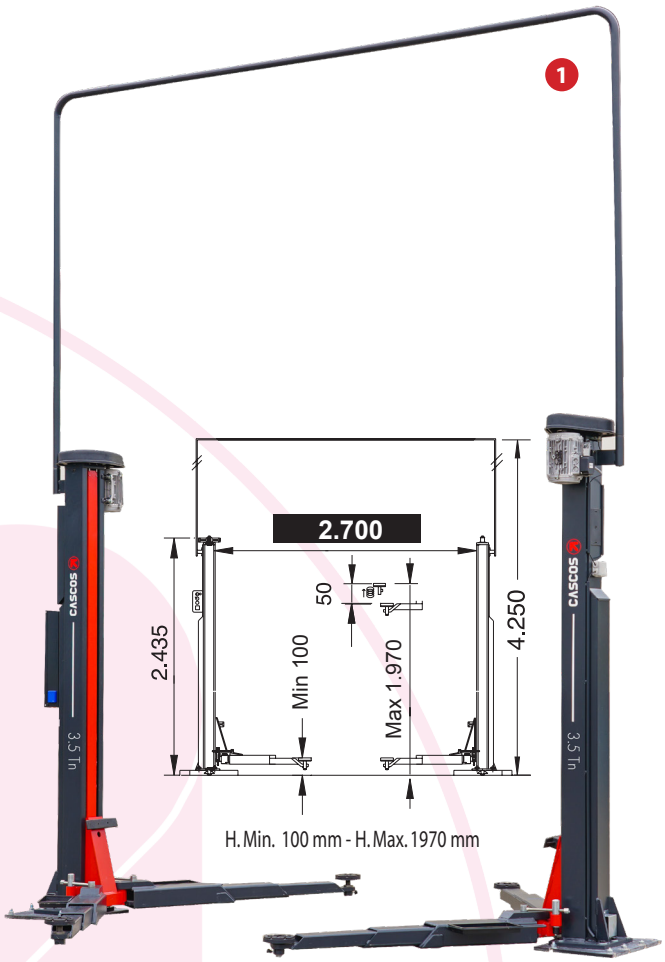
Made in Germany



SlenderTec™ Super Strength Column Made in Germany profile allows to **manufacturate extremely resistant post and less bulky.**

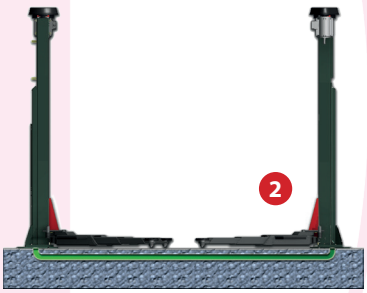






Reversibility

Our lifts include anchorage plates.



Motor wiring and detectors can go either throught:

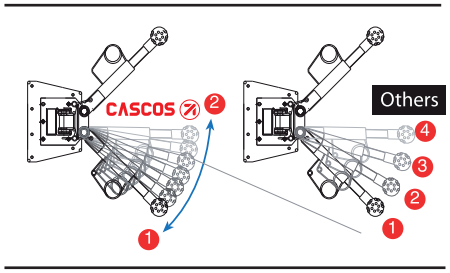
- **The supplied archway** 1
- **The floor** 2

2006/42/CE & EN - 1493:2011
European Directives
& Approved Standards

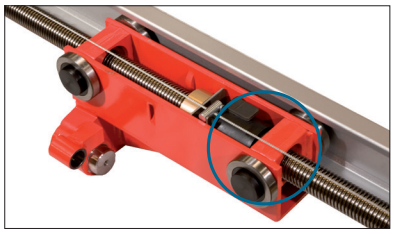
Ref. 13169 — 2 POST: LIFT C3.5S

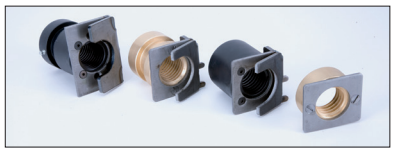
Exclusive details

Our safety locks mechanism, via spindle rod, unlike the cog type, allows universal **positioning of pick-up points.**



High quality guided steel bearings offer longer durability than nylon guides.





The biggest diameter spindle on the market and hight quality nuts offer:

- **Less wear.**
- **Longer lasting life.**

The most advance and reliable levelling system in the market

ILC SYSTEM

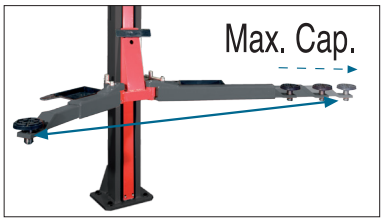
(INTELLIGENT LIFT CONTROL)

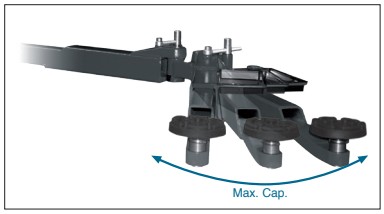
A NEW GENERATION OF LIFTS

ILC (Intelligence Lift Control) an innovative control system developed by CASCOS **that not only controls the operation of lift** but also allows us to display on the LCD screen control information that improves the management and performance of the equipment in many aspects: safety warnings, useful information about the lift operation , operational alerts, maintenance notifications, instructions to follow in the most common breakdowns, userconfigured options such as working height, ID key to prevent unauthorized operation, etc... **ILC** is a new concept that will **help you control and improve the profitability of your workshop** all through a friendly menu.

Maximum APPROVED load

In any position!





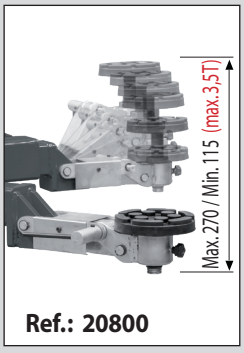
Our lifts, againts the others from our maine competitors, can lift the maximum **load at:**

- **Any opening angle.**
- **Arm extension.**

- Tool trays.
- Door protection.
- Spindle protection.

Accessories

Clip system pads



Ref.: 20800
